Class/Seminar Teacher Evaluation

This survey requests your feedback on two separate aspects of your learning experience, split into three sections. The first section asks for your views on your teacher's class/seminar teaching. The second section asks for your views on the course as a whole *at this point in time*. Finally, the third section asks for some information about you, to aid analysis. Your views are valuable to your teacher and to the School. The results will be used to identify good practice and will also be used to help improve the teaching and learning experience for you and your peers.

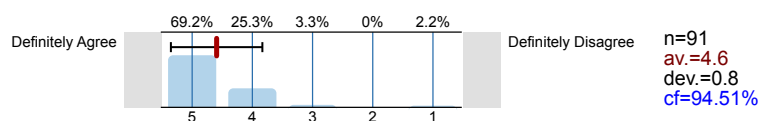

The School reports internal survey results as the percentage of respondents who 'mostly agree' or 'definitely agree' with each statement, in comparison to the percentage of respondents who either 'mostly disagree' or 'definitely disagree' or 'neither agree nor disagree'. The percentage of respondents who 'mostly agree' or 'definitely agree' is the '% Agree' result. For example, the % Agree score means that X % of students on Y course mostly or definitely agree with the statement 'I have received helpful comments on my work'.

- N/a
- Seminar is very good. Very detailed explanation.
- Seminar pretty good
- Seminars are good
- The practicality in the real world

2.15b Please comment below on aspects of this course you think could be improved.

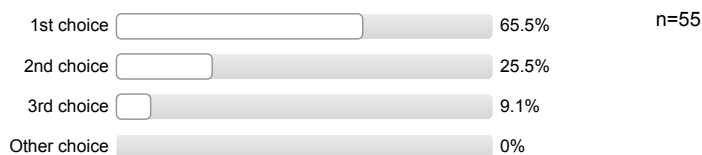

- 1. The professor often change the lecture time, and often to 7-9pm, which is quite late for students living far from campus. 2. The lecture slide contents are not well organized. The logic can't be followed very well.
- Better integration of how the lecture material is relevant to the exam, especially what we are expected to know for part b of the exam where we need to write an essay. I feel like this is a large percentage (40%) of our final grade but we are a bit unclear of what is expected of us and the material needed to score well.
- During the beginning of course, lectures were behind seminars, which made it difficult to understand in class and do the problems.
- Integration of seminars and lectures
No feedback received
- Lecture could be more organized.
- Lecturer's accent is a little bit thick
- Lectures could be more engaging and the contents could be more well explained
- N/a
- Seminar and course are not arranged in a well-manner
- The complexity requires more explanation
- The delivery of lectures needs improving
- Too much material. Examples in lecture slides are not clear enough. Lecture noted need to be reduced and rewritten with more structure
